Article published on 08 May 2014

The eighth European Scientific Conference on Applied Infectious Disease Epidemiology (ESCAIDE) will take place in Stockholm, Sweden from 5 to 7 November 2014.

As every year, ESCAIDE 2014 will bring together public health professionals from Europe and the rest of the world to present and discuss developments in infectious disease prevention and control.

The call for abstracts for the conference is now open, and abstracts can be submitted via the dedicated 'call for abstracts' portal on the ESCAIDE website (<http://www.escaide.eu/>). The closing date for submissions is 25 May 2014.

Abstracts are welcomed in all areas related to infectious disease intervention, including epidemiology, public health microbiology, surveillance, vaccinology and the application of tools and methods to prevent and control communicable diseases.

The final programme details and conference registration instructions will be posted soon on the ESCAIDE website.
